Camino Books Inc.

These books are a wonderful reference for breeders. Not only do they contain all of the show champions and producing bloodlines (for the specific time period mentioned) but include articles, breeder and kennel advertisements, and many photos of champions and titleholders in the breed.

Champions are recorded in alphabetical order of the sire, as well as again under the dams name for quick reference, and all are included whether they produced one or many champions. All with registration and/or stud book numbers.

Books - and how to find

This is a valuable tool for breeders who need a correct count of champions of all ancestors in any given pedigree. Intended as a reference to producers, champions and litter mates, it is also a source for finding grand get/produce in the breed, or proof of ROM (Register of Merit) status.
